## Istituto cultura italiana (NGO)

Non-profit organization operating in the linguistic and literary field,  
active in Tbilisi, Georgia

### Registration form

All lessons will be held in our classrooms located in M. Kostava st. 68 (at Georgian public broadcaster, III building, II floor).

The price for a course is 150 GEL / month: the student can enjoy up to 3 lessons per week either in a class, or individual lessons, without additional fees.

If the student is not able to fulfil this amount and he/she is willing to carry out lessons with informal methodology and based on intercultural exchange, he/she can apply for participation against a free offer, and the request will be accepted or not at our discretion.

The payment is meant to cover 1 calendar month after the start of the first lesson: lessons lost due to other commitments of students will not be recovered at the end of each month.

We encourage to keep mobile phones turned off during lessons (or disconnected from the Internet) and to entertain communications with teachers and other organization's members by calls and email, where will be also dispatched teaching material.

Our assistant(s) or teacher(s) will provide you with the day and time of foreseen lessons arranged on common agreement. Each lesson is expected to last about 1h15 minutes (eventually with a pause after 30 minutes). If the student arrives late the time will be not recovered after the scheduled end of the lesson (i.e. the lesson will last the scheduled time, minus the amount of delay).

Enrolled students can visit our offices at any time from 17.00 to 21.00 to enjoy free conversations on Italian language and culture with native Italian speakers, to receive orientation, or to consult books from our library.
